

TRADE UP NEXT GENERATION **INVOICING**

Causeway's **Tradex e-invoicing solution** reduces operating costs associated with serving customers, whilst improving predictability of cash flow. Tradex is the **largest construction based trading community in the UK** used by over **140,000 organisations** making 25,000 transactions per day.

Without doubt, Causeway Tradex delivers a huge saving in time and cost for us. The basic cost of sending a document is only a few pence, giving us an instant saving on manual processing costs.

FRANK MCGRORY
HEAD OF IT – GAP GROUP

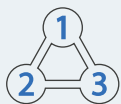

Tradex e-invoicing

Partners are able to electronically send and receive trading documents such as invoices, requisitions and purchase orders. Once connected, companies can trade electronically through a scalable and flexible integration hub that supports multiple document types and user services.

Free connections for suppliers

Our 100% Cloud based e-commerce solution eliminates inefficiencies associated with handling paper documents to deliver significant cost reductions in the management of electronic transactions throughout the supply chain. Suppliers can join for free.

2,000**

Speeds up invoice processing

**BY UP TO
30 DAYS**

Improve data security

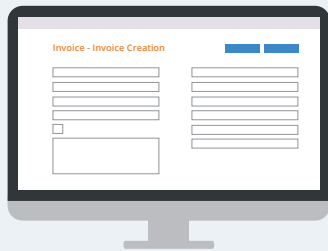

Adoption of secure, e-invoicing platform

**ACCREDITATION
ISO**

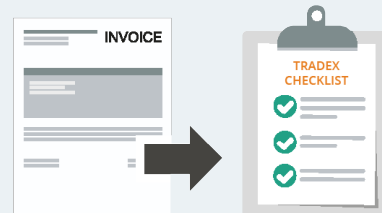

TRADEX SUPPLIER CONNECTION OPTIONS

1 Tradex Portal

A simple and free online portal that allows you to **key invoice details into an online template**. There is no direct charge to you for this service. Tradex portal does not integrate with your back office applications so it is best suited to companies who send less than 10 invoices a month.

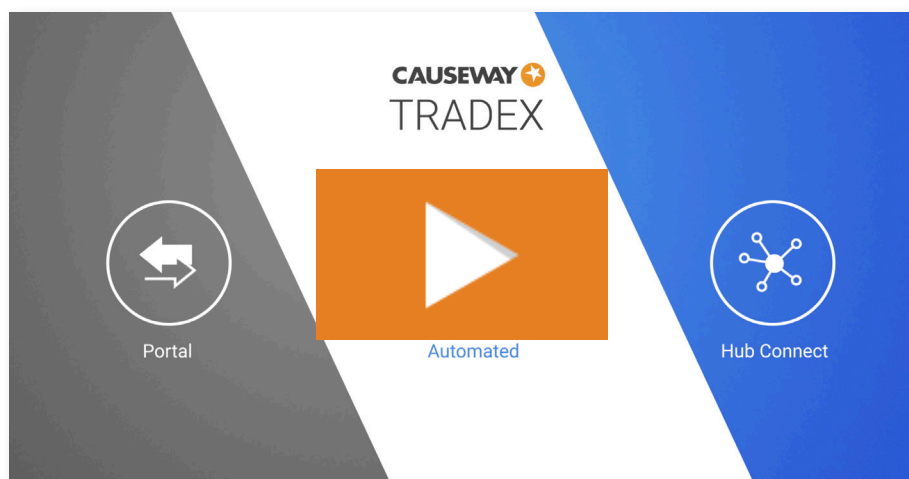

2 Tradex Automated

Allows you to **send your documents** to your customer(s) via Tradex in an **automated way**. Tradex receives invoices in a structured data file format from your back office system, Tradex would then apply all of your customers checks to the documents, i.e. Is a valid purchase order number present etc. If any of the required details are not on the invoice, you will receive a notification informing you of the rejection and the reason. This saves time and improves first-time invoice pass rate.

Watch the Tradex connections video

For more information on the different methods of connecting to your customers through Tradex watch the video, click below or visit https://hubs.ly/H0fX_xR0.
